

10 Benefits of Modular Car Parks vs. traditional parking solutions

In partnership with **sidepark**
parking solutions

1 Increase revenue from existing parking space or vacant land by adding a parking deck

2 No foundations – eliminates underground obstructions issues & allows for construction on archeologically sensitive sites

3 Faster build time - modular, foundationless system for quick & easy construction

4 Create cost savings from automated operations

5 Greater flexibility – create temporary or permanent structures

6 Fully portable for relocation to suit changing requirements

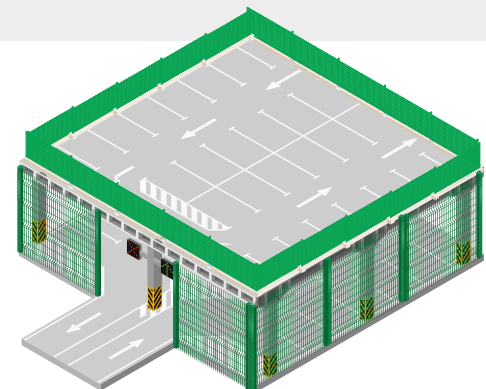

7 Modular structure means a staged handover to allow for immediate use

8 Generate additional revenue from optional EV charging points & solar panels

9 Easy maintenance due to modular componentry – sections can be removed & replaced efficiently

10 Customised cladding choices support aesthetic & planning requirements
